

COMPANY PROFILE

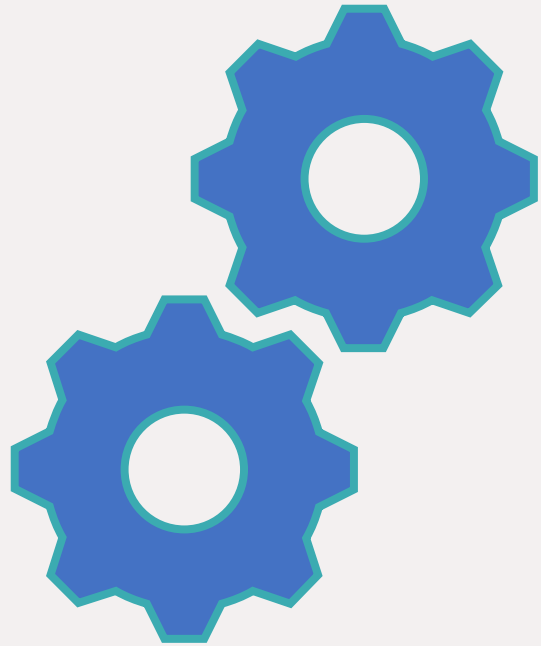

BIOMEDICAL EXPERTS PVT LTD.

EXECUTIVE SUMMARY

Biomedical Expert is a growing and innovative company in healthcare industry in the Pakistan and Middle East. For more than 10 years we are known for combining innovative healthcare technologies, medical systems, workflow management consulting and support services in order to help our customers to achieve sustainable, clinical and financial outcomes. Our product portfolio covers full Radiopharmacy solution and Nuclear Medicine.

OUR MISSION

Our mission is to provide high-technology systems in the field of Nuclear Medicine, Radiopharmacy and Oncology, with the aim to continuously increase the accuracy and the safety of technicians, researchers, and patients. In fact, “Safety First” is the philosophy which distinguishes and identifies all our policies and actions. Our vision is to contribute to progress and preserve life through the development of highly innovative technologies and sustainable solutions, according to the latest GMP (Good Manufacturing Practice) regulations.

CORPORATE STRATEGY

The focus of our corporate strategy focuses on the following points

- Developing and enhancing Health Care in Pakistan & Middle East
- Achieving uncompromised customer satisfaction
- Developing sophisticated partnerships with customers and suppliers
- Continuously expanding product portfolio to provide complete medical solutions
- Offering exceptional after sales service and support
- Evaluating organizational performance and continuously identifying areas of improvement

THE TEAM

Our team included highly qualified engineers who are committed to achieve the highest customer satisfaction. We believe in building long-lasting relationships and partnerships based on trust and respect, from expert to expert.

OUR PARTNERS

IBA (ION BEAM APPLICATION)

IBA IntegraLab® team customises your PET facility to meet your production output requirements. Whether you need an extension of your facility, a change of equipment or to comply with the GMP standards, our in-house experts can help you to reach your goals. You can choose the support you need from basic design all the way to the validation and regulatory compliance.
